i-Lab Application – Payment Gateway Integration Flow

Overview

The i-Lab mobile application provides users with access to laboratory testing, calibration, prototyping, and other innovation services available through participating laboratories and incubators.

User Journey

Step 1: User Login

- User launches the i-Lab mobile application.
- User logs in using registered credentials.
- Upon successful authentication, the user is directed to the Dashboard.

Step 2: Navigate to Services

- User selects the **Services** tab from the bottom navigation menu.
- The application displays all available services along with location and laboratory details.

Step 3: Search and Select Service

- User searches for a required service using keywords.
- Relevant services are displayed in the search results.
- User clicks **More** to view service details.

Step 4: Service Details

The Service Details page displays:

- Service Name
- Service Code
- Sub-Service
- Laboratory Type
- Description
- Unit Price
- Quantity Selector

Item	Value
Service	Calibration
Unit Price	₹4,500
Quantity	1
Total Amount	₹4,500

Step 5: Quantity Selection

- User can increase or decrease the quantity using the quantity selector.
- Total payable amount is automatically calculated.

Formula:

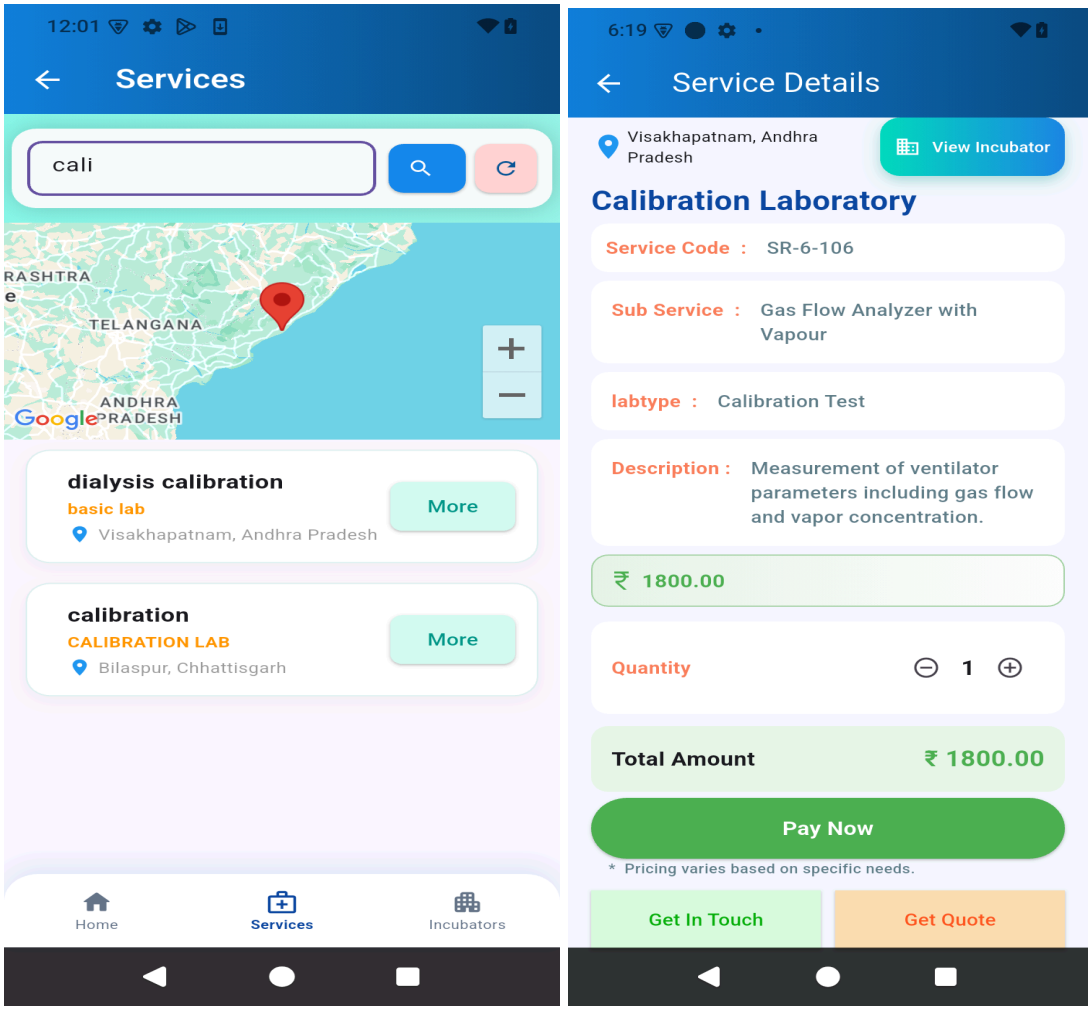

Total Amount = Unit Price × Quantity

Example:

Unit Price	Quantity	Total
₹4,500	2	₹9000

Step 6: Payment Initiation

- User clicks the Pay Now button.

Step 7: Proceed to Payment – Workflow Documentation

Trigger Action

- User clicks **Pay Now** button.
- A **confirmation pop-up** appears with two options:
    - **Proceed** → Redirects to Easebuzz Payment Gateway.
    - **Cancel** → Closes the pop-up, transaction aborted.

Payment Gateway Interaction

- On clicking **Proceed**, the system calls the **Easebuzz Initiate API**.
- User selects:
    - **Payment Mode** (UPI, Net Banking, Card, Wallet).

    - Completes transaction by clicking **Pay**.

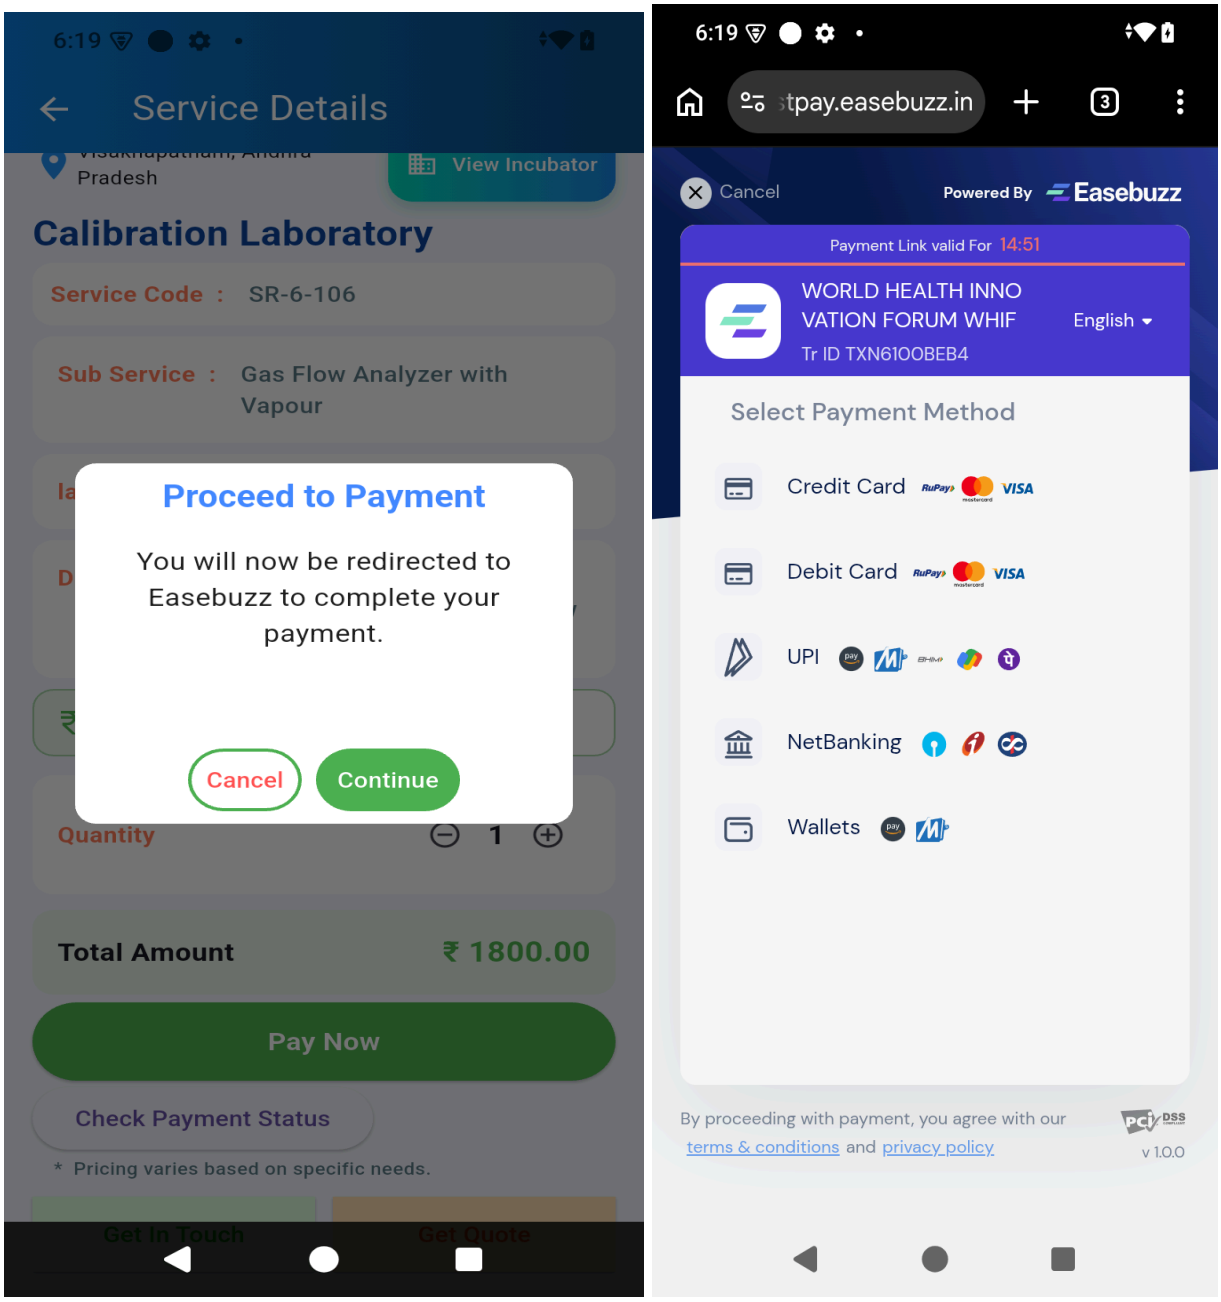

Transaction Outcomes

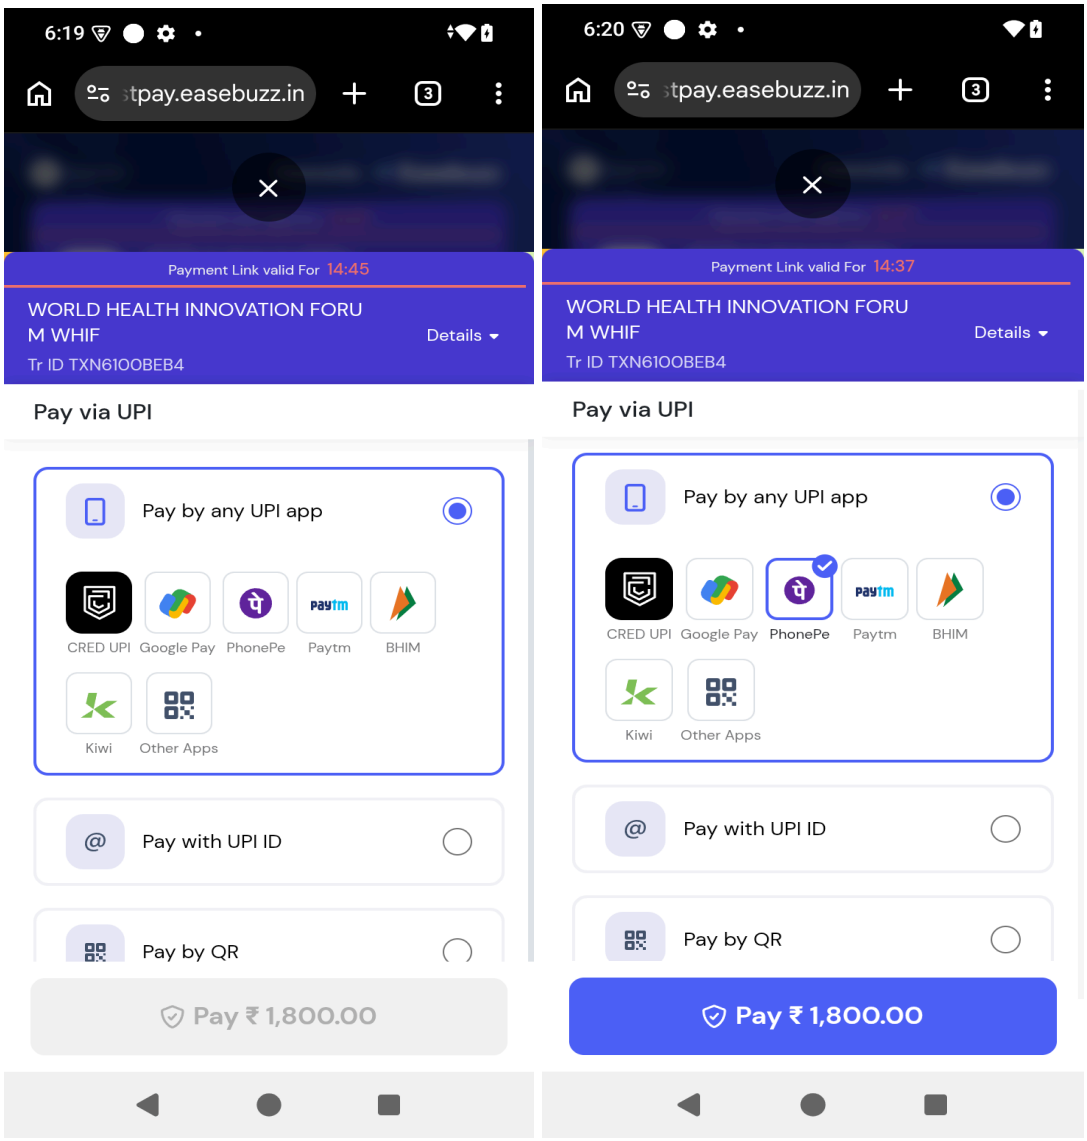

- **Success** → Gateway returns `"Success"`.
- **Pending** → Gateway returns `"Pending"`.
- **Failure** → Gateway returns `"Failure"`.

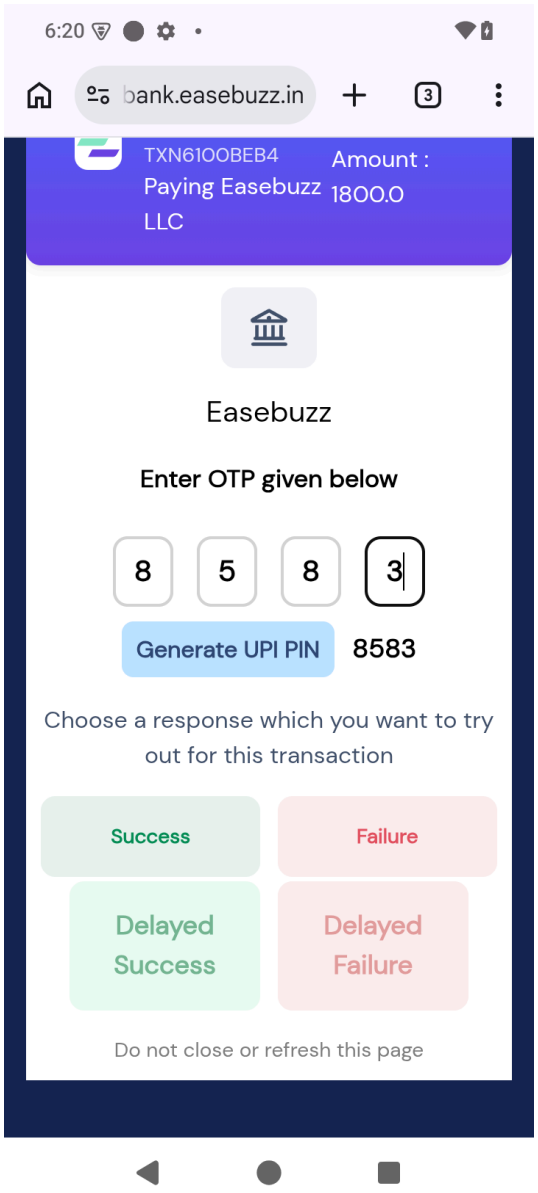

These statuses are stored in the **Payment History database** for reference.

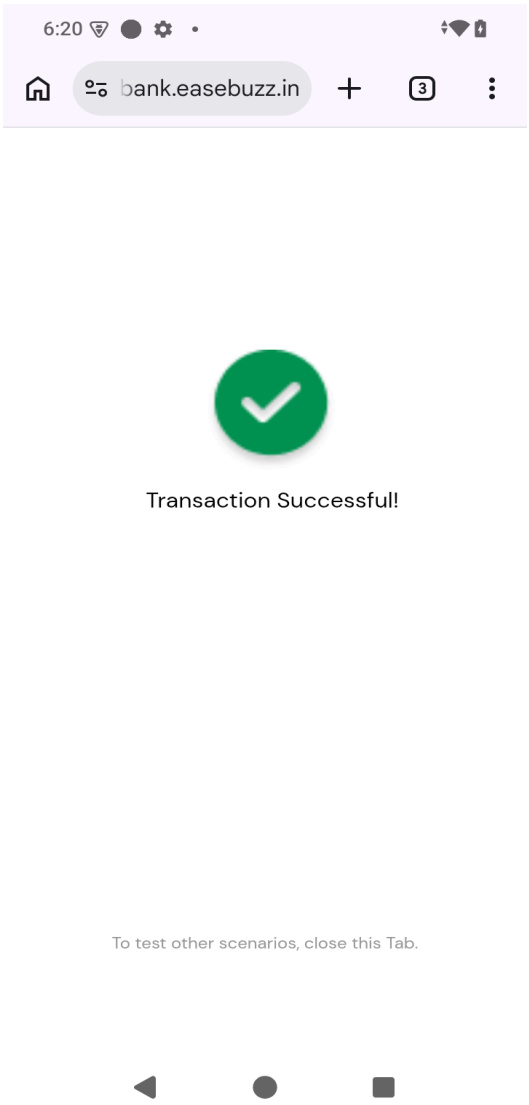

Payment History Access

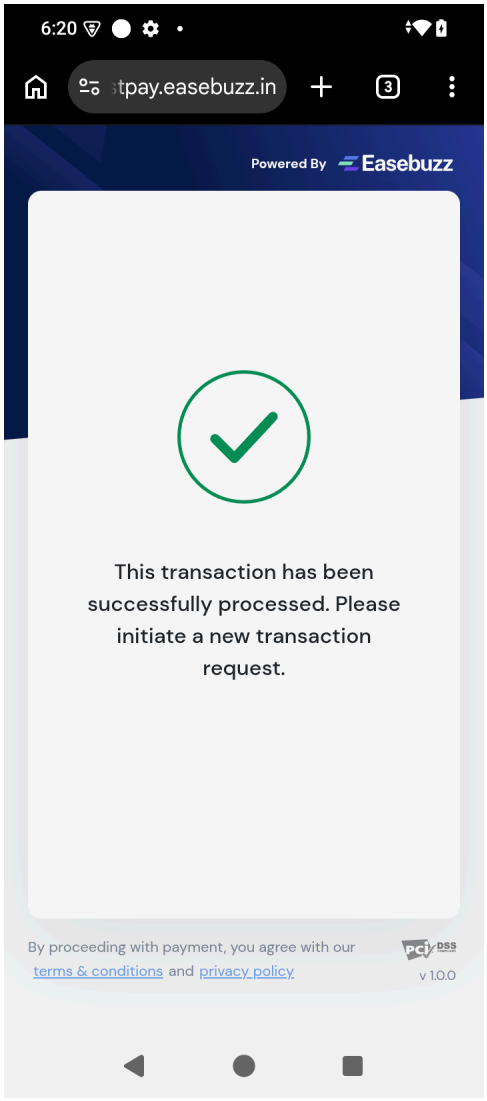

- User clicks **Right Menu** → **Payment History**.
- A list of transactions is displayed with:
    - Transaction ID
    - Easebuzz ID
    - Amount
    - Date & Time
    - Status (Success / Pending / Failure)
